Re-defining quality

Who are we?

I-Six Logistics means the link between organizations and their customers connecting service delivery, accountability, transparency and good governance.

I-Six Logistics Training & Research Consultants is a Corporate Training & Consulting company since 2010. We specialize in Training and Human Capital Development, for both management and technical skills. We also provide specialized competencies through system development and research. In addition to the extensive industrial experience in capacity building, we have a pool of experts in our faculty specializing in specific areas that serve organizations of numerous industries.

We work together with companies and individual experts as smart partners in providing hands-on solutions to help solve day to day business challenges by developing their capacity in human capital, Organisational systems and new information through research.

Our approach ...

We believe that training does not stop at preaching in front of a whiteboard. We stress on hands on application, real LIVE experiences and FRONT end technology.

Each consultant is matched to the requirement of the client. They are specialist in their own field who have substantial experience and are able to share gems. We bring to you the front end of technology right in the heart of your company, empowering your staff with global industrial knowledge and current practices.

We are a Solution-Driven organization with customized programs dedicated to the essence of training and development. Give us a call today! Our specialized team of consultants will come to your doorstep and listen to your needs and come up with the best Institutional development and training programs, coaching and consultancy for YOU.
